

**Date Received:** 03/10/06

**Date Completed:** 09/10/06

**Detail of request:**

I need to obtain the following information for the year 2004.

- How many female patients aged 25-35 were admitted to hospital with Diabetic Ketoacidosis (DKA) within your NHS Acute (Hospital) Trust in 2004?
- How many of that total number died (if any)?
- Of those deaths, how many had co-morbidities?
- If available, the number of days after admission that the patient died.

**Details of response:**

I have been informed that between 1 January 2004 and 31 December 2004:

- There were 18 females aged between 25 and 35 years old, admitted to the hospitals of the NHS Trust, with a diagnosis of Diabetic Ketocacidosis (DKA).
- Of that total, none died.
- Non-applicable.
